

Auto411 Sign-up Form

Client business name _____ Contact name _____ Existing 211 client _____

Address _____ City _____ State _____ Zip _____

Client signature _____ Date _____ 211 Acct # _____

E-mail for reports _____ E-mail address for billing _____ Phone _____

1. Payphone211.com is the operator of the Auto411 service, a division of (API) Alliance Payphone Inc. Payphone211.com provides Auto411 to payphone companies (Client).
2. This service is on a month-to-month prepaid basis and may be canceled at any time and requires the ANI list from the client to receive service. New Anis must also be submitted in a timely manner because if the ANI is not in the system, no calls will be processed for this ANI. If service is canceled, unpaid balances must be paid. Any remaining deposit will be returned 2 weeks after the cancellation notice and after no traffic has been received by Auto411 system. Upon cancellation, client must route traffic away from the Auto411 system access number. Inbound calls received after termination will be billed at .12 per inbound call even if no calls are processed.
3. API may at its own discretion limit or suspend service to the client based on unpaid amounts or exceeding credit limits assigned by API.
4. API shall not be liable to Client for special, indirect, or consequential damages. The liability of API with respect to any claim in connection with services provided herein whether in contract, for warranty, or otherwise shall not exceed the price or charge for such call.
5. API will not be liable or pay for *DAC (Dial Around Compensation) payments to payphone providers using the Auto411 service line accessing the toll free access number _____. Client expressly agrees to hold API harmless from any liability from any Dial Around (DAC) compensation. Client shall not expect to be paid for calls to Auto411 payphone service which uses the toll-free numbers to allow access the system originating from client's payphones or client's sub-account payphones. In the case client submits sub-account ANIs, client indicates he has authority from the owner of the payphones to release API from DAC for Auto411 program using the mentioned toll-free access numbers.
6. Client agrees to cooperate with API in the event API's toll free number service carrier requests payment of DAC from API by providing the necessary documentation showing API is released from paying DAC to client on the specific access numbers into the Auto411 system.
7. Client understands if the balance of the deposit reaches \$0, no calls will be processed after this. It is the responsibility of the client to add value or pay any pending balance via either www.xpressid.com web site or by sending a check to Alliance Payphone, Inc. If a check is used, value will be deposited into the account once the check has cleared. The system will notify the client of the low balance or the credit limit being reached via e-mail only, which will alert the PSP to add value or pay outstanding balances to the account. Client will pay the invoices which will only be sent by e-mail and will not allow the amount on deposit to reach 0.00. If client changes its e-mail address, API should be notified immediately.
8. Client must program phones correctly and test according to the programming instructions and available tests
9. Rates .049¢ per minute (2 minute minimum, 1 minute increments)
